MONEY, BONDS AND STOCKS.

Moderate Degree of Activity in New York the Active List Being Lower. NEW YORK, May 7 .- Money on call was way at 11 32 per cent., the last loan being made ut 2, closing at 14 @2.

Prime mercantile paper, 526 per cent. Sterling exchange was dull but firm at \$4.86} ler sixty-day bills, and \$4.88} for demand. The total sales of stocks to-day were 194,673 shares, including the following: Canada Southern, 4,505; Delaware, Lackawanna & Western, 14,480; Erie, 5,900; Lake Shore, 4,160; Louisville & Nashville, 10,250; Missouri

Pacific, 12,020; Northwestern, 6,440; Northern Pacific preferred, 9,785; Oregon & Transcontisental, 23,940; Pacific Mail, 2,936; Reading, 14,100; Richmond & West Point, 12,665; St. Paul, 27,185; Texas Pacific, 4,170; Union Pacific, 26,960; Western Union, 10,680.

The stock market was only moderately active to-day, and while weak in the forencon recovrred somewhat later in the day, closing firm. though at fractional losses for the day in most of the active list. London was a buyer at the spening, and this gave a strong tone to the early trading, first prices being from 2 to 1 per cent. above Saturday's final quotations. The room was generally in a bullish frame of mind, but the traders and professionals were seeking for a further reaction, and the unfavorable statement of the Atchison was used against the list in general and special pressure was brought against the Gould stocks, which were found to yield more rapidly than the rest of the hat was remarkably strong in the early dealings, but after a rise of a point gave way with the remainder of the list. Missouri Pacific led the decline, and before it was stopped had dropped 33 per cent. Union Pacific also became quite weak later, the stories that the control of the Soo line had been ought by Canadian Pacific parties and that the atter road would demand a larger differential in the transcontinental pool being used against the stock with some effect. A feature of the dealings was the demand for Lackawanna in the loan crowd, as high as 1-64 being bid for the use of the stock to-day, while the "short" interest in all the active stocks is reported very large, one operator having out 100,000 shares. There is an impression that the market has been weakened by parties interested in defeating the placing of the Reading 4 per cent. loan in London, and Reading was weak at one time to-day, though it was never a leader in the seline. Manhattan was next to securi Pacific as to weakness, but New England, after it once was started, showed marked weakness. Toward 2 o'clock the lowest rices of the day generally were reached, and he "shorts" then started in to cover, which ralthe "shorts" then started in to cover, which rallied the list, though little progress was made until during the last hour, when the advance gained force, and most of the list were brought up to the neighborhood of epening figures. The close was quiet but dull. Wheeling & Lake Eric preferred was exceptional this evening, with a gain of I per cent, but most of the list are fractionally lower, and Missouri Pacific is down 2; Manhattan, 1; Oregon Navigation, 1; and Fort Worth & Denver, 1;.

The railroad bond market was quiet but firm

The railroad bond market was quiet but firm to strong, but the only features of the dealings were the Fort Worth & Denver firsts, and the former fluctuated over a comparatively narrow range, and finally closed slightly lower on sales of \$254,000, while the latter was strong and rose 1 per cent., though it reacted fractionally at the close, its sales aggregating \$160,000 out of a total day's business of \$1,429,000. Most of the

CHICAGO, May 7.—The first hour on 'Change was very dull Opening prices ranged just a trifle better than the closing figures on Saturday. About 11 o'clock the wheat pit livened up and the market became very active. "Shorts" who realized that they must depend on the tail end of the old crop to fill contracts, bought June wheat; then the visible supply figures came, showing a decrease of 1,146,000 bushels for the week, encouraging more buying. This was followed. week, encouraging more buying. This was followed by reports from Missouri, which have been recently conceding that damage was more than expected. On these things there was an active market from 11 A. M. until the close, when the advance for the day was about 20 jc.
June opened at 821082 jc, sold up to 831c; July
opened at 831c and sold 841c. Corn sold within
a narrow range, and while the general feeling
was strong the large receipts and the large was strong the large receipts and the large increase in visible supply, a large per centage of which is No. 2, prevented any special advance. Closing prices were very near the outside for the day and fractionally higher than on Saturday. May opened at 57½c, sold at 57½c, and closed at 57½c; July opened at 55½c, sold at 55½c, and closed at 55½c. The speculative trade in oats continued active, and the market strong and advancing. vancing. The amount in store is small and holders do not seem inclined to let the price drop at all, and consequently the "shorts" are covering at a little higher figures every day. May oats sold up to and closed at 341c; July sold up from 32 to 33c, closing at 32 c. Provisions were quiet and steady, trading being mostly professional. Short ribs were the most attractive, and were sold early by strong parties who changed their minds later and bought back their purchases at higher prices. July ribs sold at 7.57 @ 7.65c, and closed at 7.65c; September sold at 7.72 @ 7.85c. Lard, for July, sold at 8.17 @ 8.22 and closed at 8.25c. Pork, for July, sold at \$14.22} @ 14.25, and closed at \$14.35. The leading futures ranged as follows:

The Foreign Grain Trade.

LONDON, May 7.- The Mark Lane Express, in its weekly "sview of the British grain trade, says: Native wheat values are firm. There is a fractional advance in the provincial markets. The sales of English wheat during the past week were 55,419 quarters at 31s 2d, against 60,499 quarters at 33s 2d during the corresponding week last year. The rates for country flour are maintained. Barley, oats, beans and peas are scarce and prices are in favor of sellers. Prices of foreign wheats in London are against sellers. Russian wheat declined 6d. White wheats are Corn is in demand at 1-2d per cental higher. Linseed on the spot declined is. There were six arrivals of wheat cargoes, three were sold, two were withdrawn, and four remain. At to-day's market wheat was inactive. Sellers refused business under last week's prices. Flour was steady. No corn was offered on spot.

INDIANAPOLIS MARKETS.

Trade Opens Rather Tame in All Departments, with Few Fluctuations in Values. INDIANAPOLIS, May 7.

Trade opened to-day rather sluggishly. There were but few buyers in, and mail orders were rather small. However, shipments on orders which were brought in by the traveling salesmen on Saturday were quite large. Several changes in dry goods quotations will be noticed. the changes being in the way of letting down of sheetings, but the tone of the dry goods market otherwise is firm. Druggists report trade brisk and prices on all lines steady. The demand for oils and paints is large. Hide men are blue;

the market is sluggish and prices drooping.
Leather dealers report trade fair. Sugars are hardly as firm as a week ago, but prices will hardly decline to any expent in the near future, as the demand from this on through the fruit season will largely increase. The wood market can hardly be said to be attive or strong; it is really too early in the season to speak with any certainty of the prices which are to rule. The Boston Herald of May 5 says: The prominent features of the wool market are its continued duliness and the low prices at which lots are being sold to close them out. It is doubtless true that the position on really desiralots are being sold to elose them out. It is doubtless true that the position on really desirable lots of wool is ready, if not even a little better, but the desire has been so strong to close out wool for a long time held—to close it out before the coming in of new wool—that prices have been accepted that would have hardly been looked upon as possible a few months ago. But the strength of the market abroad and the fact that there is not really a heavy stock of old wool in the country have given a turn of confidence which could hardly have been noted a couple of weeks ago. This is especially true of fine wools." The produce markets were moderately active to-day. There were but few strawberries on the market, and prices were nominal; the same is true of tomatoes. Poultry, eggs and butter all firm at quotations: receipts rather light. Young chickens are wanted at \$5 to \$6 per dozen, according to size. But few coming

There was a fair attendance on 'Change today, and the bidding showed that buyers were not anxious to take. Receipts and shipments show but little change in the movement of grain. Local receipts, as indicated by inspector's report, show a falling off, inspections being for sixteen cars, as against pineteen cars for preceeding

Wheat market presents no new features; the offerings continue very small, while there is a good demand. Corn is quoted about as on Saturday. White grades slow sale; other grades in fair demand. Choice ear is wanted by the jobbing trade at 55½ 256c. Oats are firm at quotations, with decreased offerings. Feeds, also hay, are in good request, with limited supply. Track bids on call board:
